September 12, 2017

To the Honorable Mayor, City Council and the Citizens of Lyons:

The Duly Appointed Finance Committee, City Manager, and Financial Department respectfully submit for your consideration the balanced budget for the fiscal year 2018 (FY 2018) for the City of Lyons. An objective of the City's budget is to provide a management tool by which our local government can unite its budgeting efforts to provide quality services while operating within available resources. This process results in an updating of the City's on-going financial plan and provides a vehicle by which management decisions are made as a result of the formulation and analysis of the respective data.

BUDGET PROCESS AND OVERVIEW

The fiscal year 2018 budget process began in July of 2017 with the distribution of historical data and forms to all the department directors. Each department formulated budgets in three major areas; maintenance initiatives, operating initiatives, and capital project requests. Concurrent with departmental budgeting, finance staff completed the first draft of a salary and benefits budget as well as formulated initial revenue estimates.

A draft proposed operation budget was prepared and presented to the Finance Committee. This Committee is appointed by the Mayor. This committee reviewed the documents and provided guidance as to priorities and placement of purchases during the fiscal year. Concurrently with this process an amendment to the 2017 budget was reviewed by the committee. This budget amendment focused on an amendment to both revenues and expenses increasing the overall 2017 budget. The committee's final documents were presented to the Council in a public Council Meeting on September 26, 2017 and were approved and adopted. A public hearing was held during the September 26th, 2017 council meeting where citizen input was encouraged. The Amended 2017 budget is the primary basis for the FY2018 Operating Budget.

KEY BUDGET FACTORS, ISSUES, AND PRIORITIES

The foundation for the fiscal year 2018 budget is based on three key financial factors:

- Sustainability of existing services
- Maintaining the quality of life for constituents, citizens, and businesses through capital programming
- Enhancement to services through operating initiatives

Sustainability of Existing Services and Enhancements Through Operating Initiatives

The fiscal year 2018 Operating balanced budget of \$5,012,436.00 is based on a millage rate of 2.89 mills, which is the same millage rate applied in previous fiscal years. This budget provides financial resources for the City of Lyons to sustain the current levels of service and includes areas of improved service via operating initiatives. In appropriating the resources to sustain existing services, the City has projected revenue sources from the following

Maintaining the quality of life for constituents, citizens, and businesses through capital programming

This priority is addressed in a separate document outlining the capital projects intended for the 2018 budget year.

Enhancement to services through operating initiatives

The City of Lyons operating budget contains two different types of funds, Government and Enterprise. Government funds use general revenues such as property taxes and sales taxes to provide basic city services. Operation and services for public safety, financial services, libraries, downtown development, and some parks and recreation services not supported by user fees are funded through the general fund budget. Enterprise Funds operate similarly to private enterprise. Their operations and long term debt are covered by user fees or dedicated revenue sources. The City of Lyons operates two enterprise funds. These funds provide drinking water, waste water and solid waste removed to the Citizens of Lyons for a fee. These enterprise funds also provide some of these services to County residents for a fee as outlined in the Toombs County Service Delivery Strategie.

The City of Lyons prides itself on low property tax and in an ongoing effort to keep property taxes low, use excess revenues in the two main enterprise funds to compensate for the deficit in the governmental fund. In the 2018 budget, the two enterprise funds will generate revenues more than expenses of

\$330,746.00. Of these revenues \$124,579 will be used to compensate for the deficit in the governmental services fund, \$42,890.00 will be used to compensate for a defect in the Sanitation fund. \$86,427.00 will be used to offset debt for an anticipated project to expand the water and sewer treatment plants.

Recreation Capital, Operating and Concession funds are also addressed in the Cities budget. These funds serve as auxiliary funds to support the quality of life activities provided by the City of Lyons Recreation Department. Concession funds and Capital funds generate excess revenues that keep fee cost to participants in recreation activities low and also provide additional funds for physical improvements to recreation grounds. In the 2018 budget, \$76,850 will be used to compensate for a defect in the Recreation Programming Operation fund.

Salary and Benefits Detail

The salary and benefit budget is based upon approved positions listed in Exhibit A and the associated benefit program costs. for FY 2018, direct City costs for salaries and benefits is \$2,5509,890, with \$1,910,700 appropriated for salaries and \$599,190 for benefits, making benefit costs 31% of the total salaries and benefit budget. The City recognizes the cost of employee retention is less than employee turnover and recruitment. The City has made an effort to hire qualified employees and reduced redundancy in staff. The City has a salary scale that is adopted by management each year in line with the current budget.
